Dear Friend,

First let me thank you for the great work you and your association are doing there are a lot of times that seeing the faces of the soldiers when they open one of the care packages sent and or read the cards it puts a smile on their faces. There is such a good feeling seeing how many people do care and take the time to show it. There has been so many time that you can tell that a soldier is feeling a little down then when a surprise package shows up. They open it up to find hygiene supplies-movies-snacks-books-etc they act as if it's Christmas and they just got the one present they wanted the most.

That is the greatest sight in a time a lot of new soldiers struggle with a lot of mixed feelings. Thank you

The one thing I would like to ask is there is a program here that soldiers with small children can find a Childs book and for approximately 15 minutes sit in front of a video camera to say hi and read the story to them. This has been great for the Moral of the soldiers with small children or other small family members, We are trying to expand this from 1 camcorder and a small hand full of children's books to allow more than a few soldiers a months to do this. If you would know of any way we could get a hold of some used short story books this would be of a great help.

Again thank you for all you do for the soldiers.

Sincerely,
